We monitor your servers 24x7 for their availability and performance. Our experts carryout server checks and trend analysis on a 24x7 basis. We provide monitoring, analysis and troubleshooting of server issues. The plan includes unlimited M-F, 8x5 service desk phone and remote control support. We provide remote care of your server: server preventive maintenance, patch management, service pack installation, anti-virus management, spyware detection and removal, backup monitoring and administration.

All the services of our Remote Server Care plan plus normal business hours on-site support in the event we need to dispatch a technician on-site.

[details, next page](#)

→ **Additional services** such as server backup, network device monitoring, and emergency after hours on-site support are also available upon request.

Crystal Communications Managed Services provides an array of essential server management services on a flat rate subscription basis to small and medium sized businesses. We help you maximize your server & application uptime to keep productivity levels high. We also minimize the daily hassles involved with using and managing technology, so you can get on with your business.
