

Date _____

Property address _____

To Whom It May Concern:

Please allow this letter to serve as written instruction, authorization and approval for the placement and installation of a satellite dish for the above referenced property.

The dish may **ONLY** be mounted as follows:

- 1) Strapped to a vent pipe
- 2) On the top of the roof using a **WEIGHTED MOUNTING BRACKET**

Under no circumstance may the mounting bracket for the dish be mounted to the building, the building's eaves, or the building's fascia board, nor may any nails, screws, brads or similar hardware be driven into the roofing material or mounted to the roof itself or the side, rear or front of the building. All wiring should be routed and attached to the building professionally and with excellent workmanship.

If for some unfortunate reason the mounting bracket is not mounted in accordance with the instructions set forth above, the bracket, dish and/or other equipment will be immediately removed and the contracted satellite dish company and resident will be liable for any and all damage to the building.

We do **NOT** have Worker's Compensation Insurance for workers that are not hired by us. This letter does **NOT** constitute a legal contract to perform work; rather, this letter only gives our consent to install a satellite dish under the agreement between the resident and the satellite dish company. We are not responsible for injury to any person working on the roof or on the property.

Thank you.

Sincerely,

Cambridge Partners, Inc
